ASSEMBLED IN CANADA. BUILT FOR WHERE YOU LIVE.

ODL doors are assembled in Canada with construction, materials, and design choices informed by the demands of Canadian homes. From precisely engineered door slabs to high-quality components, every detail is considered to support long-term performance, durability, and lasting curb appeal—through changing seasons and everyday use.

Why ODL

From the creation of the first doorlight on record in the early 1950s, we've been committed to building value through innovations in materials and manufacturing processes. We continue to invest in research and thoughtful design, bringing forward trends and technologies that meet the needs of today—and often inspire the possibilities of tomorrow. We aren't afraid to lead.

When you buy from ODL, you're choosing more than a manufacturer. You're choosing a partner dedicated to quality, innovation, and a better experience at every stage.

CONSISTENTLY MAKING LIVES BETTER FOR OVER 80 YEARS

INDUSTRY LEADER IN SERVICE

Our customer relationships are founded on consistent performance and trust built over time.

LEGACY OF BROADER SELECTION

Our industry-leading doorglass offering combined with our extensive assortment of fiberglass and steel doors fulfills a wide range of individual tastes and market needs.

QUALITY IS OUR PRIORITY (BUILT TO LAST)

Entry solutions that work overtime, every time.

FRESH IDEAS, BIG AMBITIONS

We're always at work on what's next in security, performance, and style.

Exterior Door Collections

ODL is a brand you can trust. Our fiberglass and steel doors are designed with a deep understanding of our industry's wants and needs. We strive to create versatile, consistent products with excellent performance and unmatched design. Our exceptional portfolio of doorglass and enclosed blinds in combination with our doors complements any style and solves problems for entryways. Let us show you the difference.

Fiberglass Doors

NEVER SACRIFICE
DURABILITY FOR BEAUTY

DURABILITY

Built to last with minimal maintenance, fiberglass doors won't warp, rot, dent, or rust. A high-density polyurethane foam core adds structural strength and resists damage.

WEATHER RESISTANCE

Composite edge stiles, top and bottom rails, and a durable fiberglass skin protect against water absorption, rot, mold, and wood-ingesting insects.

SECURITY

Every 6'8" door includes a structural lock block. 8'0" doors feature a full-length engineered lumber lock stile, while flush glazed doors include two full-length engineered lumber stiles for added strength, weight, and a solid wood feel.

ENERGY EFFICIENCY

A high-performance polyurethane foam core insulates against both heat and cold for superior energy efficiency.

AUTHENTIC CHARACTERISTICS

Traditional embossing, optional flush-glazed glass built directly into the door, and a true square edge deliver the look and feel of real wood.

FINISHING TOUCHES

Choose from:

- Satin Smooth: ideal for paint
- Rift Cut: versatile woodgrain texture ready to stain
- Fine Grain: tighter grain pattern for a refined, modern finish

Doorglass Collections

ELEVATE YOUR ENTRANCE

From grandiose decorative designs to subtle privacy + textured to classic clear—doorglass can be combined with your door's design elements to create a stunning look and a lasting impression.

With 80 years of industry-leading expertise, our doorglass is engineered and crafted to be exactly what your home needs.

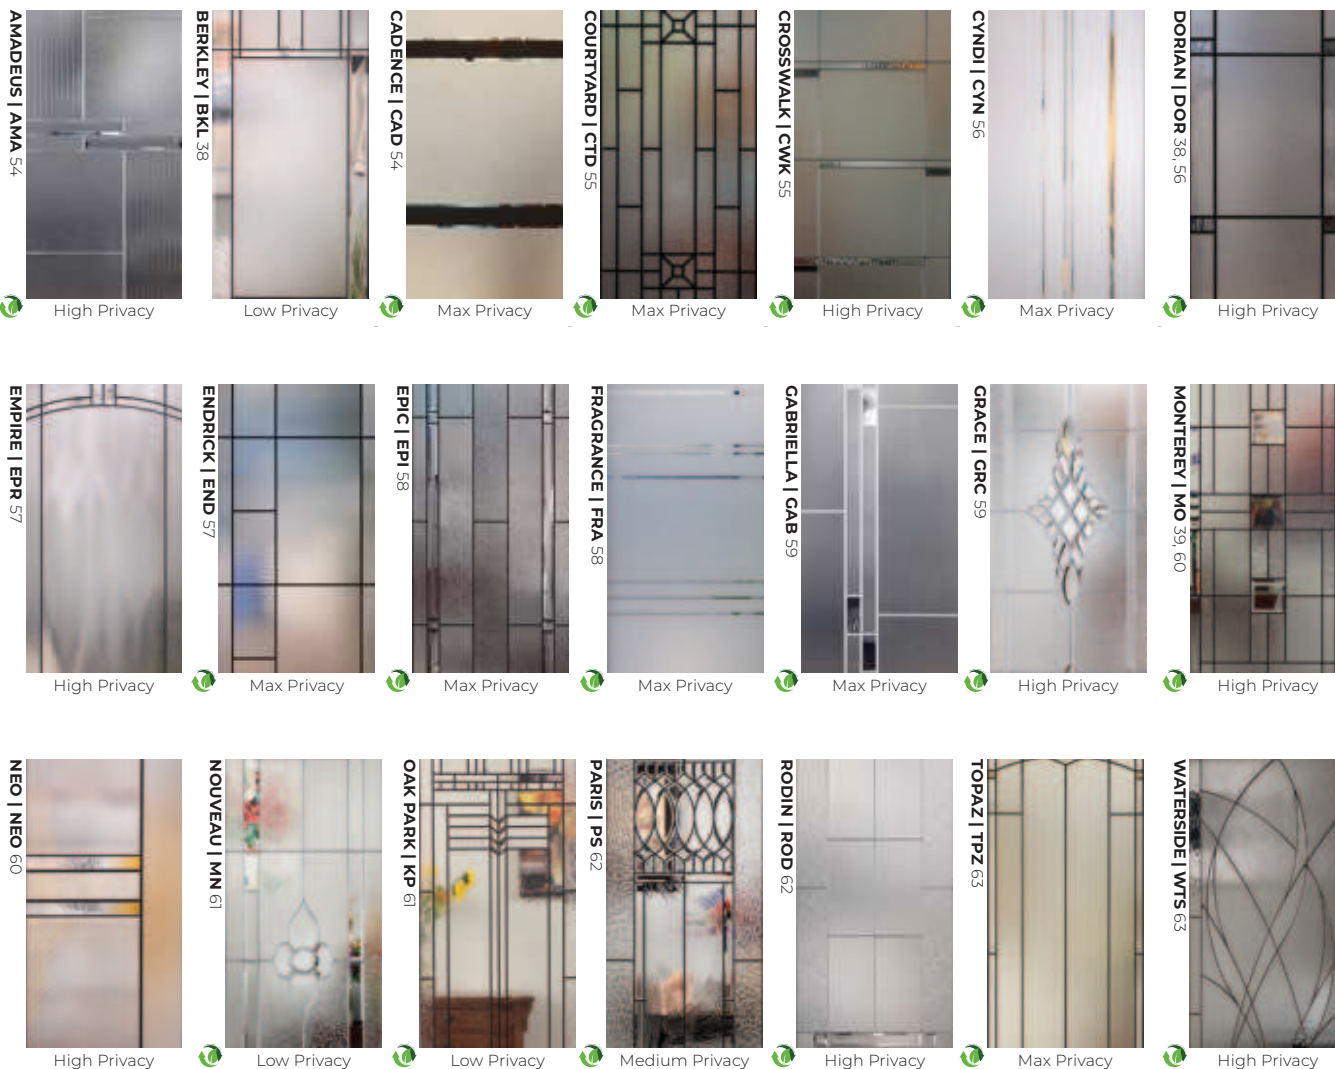

WE KNOW DOORGLASS—IT'S WHAT HAS DEFINED ODL FOR DECADES.

Our experience is evident in the quality of our handcrafted glass, cut and shaped for a range of home styles across the country. ODL's experience is also reflected in the quality of doorglass construction: two panels of tempered safety glass, insulated for air- and water-tight performance. When you look at any one of our decorative doorglass products, you see a cohesive composition, with many individual elements coming together to create that design.

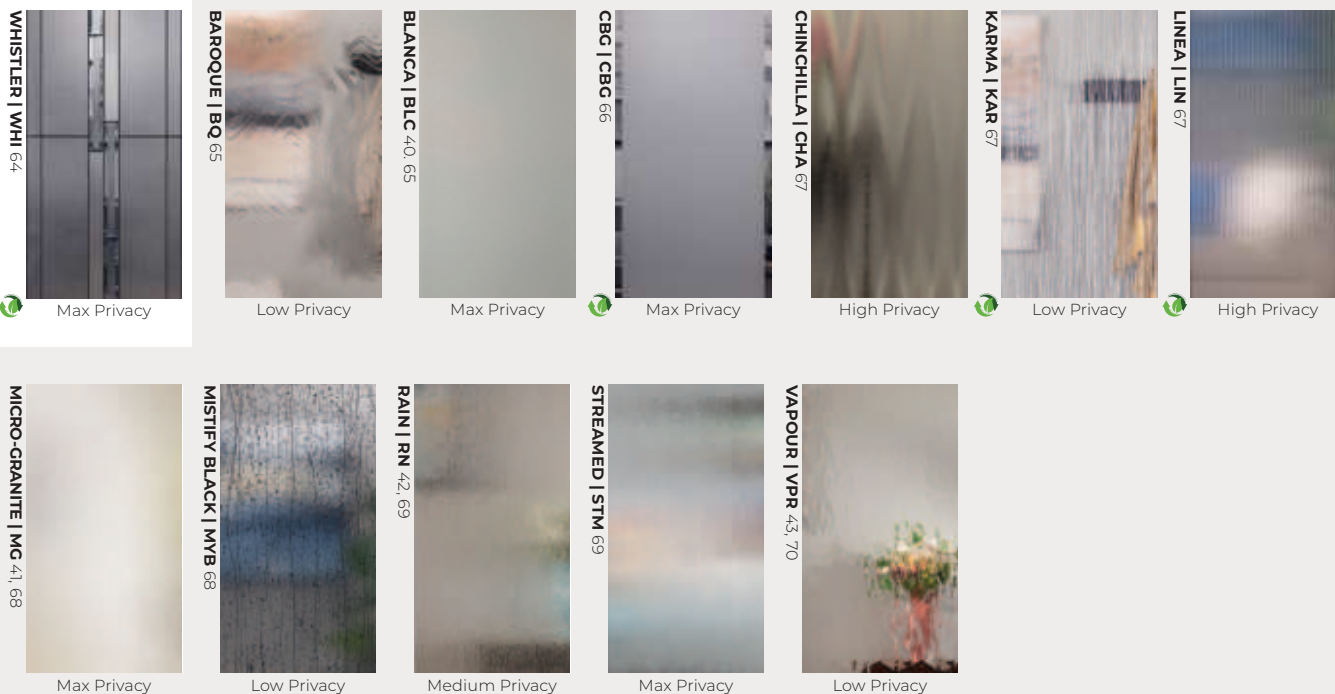

Thermally sealed doorglass adds up to energy savings by reducing heat loss in the winter and solar heat gain in the summer. Available as an option, Low-E glass reduces heating and cooling costs, protects fabrics and carpets from fading, and reduces condensation.

DECORATIVE

PRIVACY + TEXTURED

Families shown with this icon contain Low-E glass + Argon Gas, the highest insulating glass standard.

*Flush Glazed Fiberglass Door Only

Doorglass Privacy

Not all privacy ratings are created equal. Because there's no industry standard for measuring doorglass opacity, each manufacturer defines "privacy" differently making direct comparisons difficult.

ODL is setting a new benchmark with a consistent, data-driven approach. Using spectrophotometer testing, we assign an objective privacy value to every doorglass design. The result—a clear, reliable rating system you can trust.

Our Privacy Rating Scale visually represents how much visibility each design allows, helping you choose the right balance of light and privacy for any space.

The examples below illustrate one doorglass design within each of the five privacy levels. To explore more, visit odl.com/catalog.

NO PRIVACY

MAXIMUM PRIVACY

Doorglass Frames

INNOVATION, DESIGN, AND PERFORMANCE

For more than 80 years, ODL has led the industry in doorglass framing systems. With the widest selection of styles, materials, and colors, our frames are engineered for reliability, crafted for versatility, and designed to enhance any entryway.

INNOVATION

The right frame solves the right problems. Inferior frames cause issues like squeeze-out, corner flare, and yellowing—so we designed ours differently. From Resolve® dry-glaze compression seals and ZEEL's screwless clip system to Evolve's Galaxy™ screw bosses, ODL frames install cleaner, perform stronger, and last longer. It's why pre-finishers and builders alike trust ODL for frames that look better and endure more.

DESIGN

Frames should complement the door, not compete with it. From the minimalist look of ZEEL and Urban to the architectural detail of Spotlights, ODL frames elevate every aesthetic—from traditional to modern.

PERFORMANCE

ODL frames are engineered and third-party tested to meet or exceed North American Fenestration Standard (NAFS) requirements for structural integrity, water resistance, air tightness, and forced entry.

EIGHT FRAMES. ENDLESS POSSIBILITIES.

From classic to contemporary, ODL offers seven distinct frame systems—each engineered to solve real installation challenges, elevate design, and deliver proven performance across every material, style, and application.

Doors Designed to Define Your Entry

PANELLED STEEL AND FIBERGLASS DOORS.

FLUSH GLAZED FIBERGLASS DOORS.

ODL offers a comprehensive portfolio of exterior steel and fiberglass doors engineered for performance, durability, and design flexibility. From classic panelled profiles that pair with decorative doorglass inserts to clean, modern flush glazed designs that maximize light and views, our doors are built to suit a wide range of architectural styles and entry applications. Thoughtful construction, quality materials, and carefully considered design details come together to deliver long-lasting curb appeal, reliable security, and everyday comfort—providing a seamless transition into our full collection of door styles and glass options.

Steel Mark® & Steel Mark Plus® Collections

20
YEAR
LIMITED
WARRANTY

PROVEN STRENGTH. REFINED STEEL DESIGN.

ODL's Steel Mark and Steel Mark Plus Collections deliver dependable performance, fire protection, and long-lasting durability—engineered for daily use and demanding conditions. With consistent construction and shared performance attributes across both collections, the difference lies in finish and aesthetic preference.

TWO FINISHES. ONE TRUSTED PLATFORM.

- Steel Mark Collection: Primed and ready to paint, featuring high-definition panel embossments that replicate the depth and detail of premium wood.
- Steel Mark Plus Collection: Clean, pre-finished white Polytex surface—no painting required—for a sleek, low-maintenance solution.

ENGINEERED FOR STRENGTH & PERFORMANCE

Crafted with durable 24-gauge steel and reinforced lock and hinge stiles, both collections deliver structural integrity and reliable protection over time. Doors are available with wood-edge or optional steel-edge construction to meet a variety of project needs.

ENERGY EFFICIENT BY DESIGN

A high-performance polyurethane foam core helps reduce heat loss and heat gain, supporting year-round comfort and improved energy efficiency.

ALIGNED. SECURE. WEATHER-READY.

Optional steel-edge construction includes adjustable hinge prep, allowing for precise fit and smooth operation as homes settle—while maintaining consistent weather sealing.

FIRE PROTECTION YOU CAN COUNT ON

Both collections are available in 20-minute Positive Pressure with Hose Stream options for house-to-garage and interior-to-exterior applications, rated up to 3'0" × 6'8" nominal size for added safety and peace of mind.

■ Steel Edge option available (6'8" only)

Flush Glazed Collection

CLEAN STYLING. GREATER VIEWS.

Invite more daylight into your home with our Flush Glazed fiberglass doors, designed with glass glazed directly into the door—eliminating the need for a doorglass frame. This construction provides a smooth, uninterrupted look with 14% more viewing area than traditional framed designs. Choose from a wide range of decorative, privacy, or clear glass options to complement any architectural style.

TWO FINISHES. ENDLESS POSSIBILITIES.

Available in both Rift Cut texture for a natural, wood-inspired grain that stains beautifully, or Satin Smooth texture for a clean, paint-ready surface that suits any color palette or design aesthetic.

DISTINCTIVE EMBOSSMENT OPTIONS.

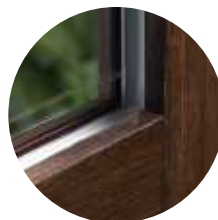

Available with either Edge or Shaker embossments, the Flush Glazed Collection blends seamlessly with classic or contemporary homes while maintaining a refined, architectural appearance.

BUILT FOR EFFICIENCY. DESIGNED TO PERFORM.

Each door is engineered with a high-performance polyurethane foam core that delivers superior insulation and long-term durability—outperforming traditional wood doors in thermal performance. All non-decorative glass options feature energy-saving Low-E 366 for added comfort and efficiency, while impact rated glass is available on select doors to meet the needs of coastal and hurricane-prone regions.

PEACE OF MIND THAT LASTS.

Our Limited Lifetime Warranty provides lasting confidence, protecting the quality, durability, and appearance of your Flush Glazed door for years to come.

Add a modern touch with wide bar kits or a classic look with narrow bars. Narrow kits can be cut to size, while wide bars are 25" long and can be trimmed to fit your door. They easily attach to many flush glazed glass options.

To get the correct door code for Privacy + Textured glass, replace the CL code with your chosen glass option.

SIMULATED DIVIDED LIGHTS

A PRACTICAL, ELEGANT TAKE ON TRADITION

Enjoy the charm of a true divided light appearance with the energy efficiency of a single pane. A mill finish internal grille and backing strips combine to deliver the look of real wood muntins—without the maintenance.

TRADITIONAL SDL CONSTRUCTION

Traditional SDL bars are injection-molded directly into our Evolve® Frame, eliminating the need for separate grille application. This integrated design provides a cleaner, more precise fit to the glass surface. Evolve frames are available in white or oak FiberMate® material.

SPECIFICATIONS

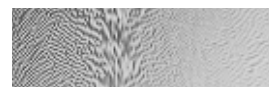

- Low-E Clear, and Low-E Textured Glass Options (see left)
- Traditional 1-1/8" External Grille (SDL)
- 7/8" Internal Grille
- Frame Options in Oak or White
